Product Designer

SUMMARY

Product designer with 3 years in B2B SaaS. Strong in end-to-end feature design, design systems,

EXPERIENCE

Product Designer - OrbitPay - Jan 2023-Present

- Owned checkout recovery and billing settings redesigns for a payments dashboard used by 12k m
- Reduced checkout drop-off on a key flow after shipping a simplified mobile path (team reported)
- Maintained and extended the Orbit design system (Figma + React tokens) with 2 other designers
- Partnered with research on 3 moderated studies; synthesised insights into prioritised opportunities
- Mentored a design intern for one placement cycle

UX Designer - Lattice Soft - Sep 2021-Dec 2022

- Designed onboarding and empty states for a project management tool
- Built interactive prototypes in Figma; ran weekly critique with product
- Improved information architecture for settings after card sorting with 9 users
- Worked closely with engineers in 2-week sprints

EDUCATION

BSc Digital Media - University of Brighton - 2017-2020

Product Design Bootcamp - DesignLab - 2021

SELECTED PROJECTS

Merchant checkout abandonment

- Problem: merchants abandoned setup before going live
- Approach: journey mapping, competitive teardown, progressive disclosure
- Outcome: clearer setup checklist; experiment showed higher completion

Billing settings redesign

- Problem: support tickets about confusing invoice preferences
- Approach: IA rewrite, clearer defaults, accessibility pass on forms
- Outcome: fewer related support tickets after release

SKILLS

Product Design - Interaction Design - Design Systems - Figma - Prototyping - User Research - Usability

TOOLS

Figma - FigJam - Notion - Linear - Amplitude (basic) - Maze
